Under this resolution Messrs. Blair Jennings, & Rives were elected printers to the House, and performed the work for twenty per cent. less than the Whigs had in the previous Congress paid to Messrs. Laporte, Gales & Seaton. And Messrs. Ritchie & Heiss took Lawrence, the printing of Congress at the beginning of the pre- Madison, sent Session on the same terms—that is twenty per cent. reduction from the prices of 1819, and had no Marshall, Martin, change been made in the law, they would have re- Miami, ceived twenty per cent. less than the prices paid by Monroe, the 27th Congress to their printers, and to pay which | Montgomery, they revoked their own acts.

The crowning injustice then of the resolution passed by the House a few days ago to reduce prices, and Orange, voted for and passed by the Whig members, is, that Owen, it still further reduces the prices of public printing Parke, beyond the twenty per cent. from the prices of 1819, Peny, and it makes this further reduction take effect on all Pike, the work done since the commencement of the session. The Crawfordsville "Press" appears to be in a Switzerland, "terrible way" about the new tariff, especially be- Tipton, cause it reduces the duties on Iron. The editor hails Union, from Pennsylvania, and cannot yet realize the fact Vermillion. that he now lives in a State whose interests are as Wigo, waba-h, much opposed to high duties on iron, as those of Washington, Pennsylvania are supposed by him to be in favor of Wayne, such duties. There is one fact connected with the Wells, iron duties to which we wish to call his attention. On the 5th inst. Mr. Evans, the Whig Senator from Maine, offered a resolution in the Senate, remitting the duties on imported railroad iron, heretofore collected to the extent of several millions of dollars. It Clark, is unnecessary to suggest that this is a true development of Tariff Winggery. Railroad Corporations, Jackson, they argue, should have their iron duty free, but Lagrange every trace chain, pot, horse-shoe, and every other Pulaski, article of iron used by farmers and mechanics, must Spencer, St. Joseph, be taxed one or two hundred per cent., to protect Warren, Pennsylvanians. It is a practical illustration of the Warrick, Websterian doctrine-"Take care of the rich, and the rich will take care of the poor,"-a maxim of which he personally experiences the full utility.

OREGON SPECTATOR .- Our friend JOEL PALMER has Morgan, Montgomery, sent us the first and second, and he, or some one Noble, &c., else, has also sent us the fifth and sixth numbers of Owen and Greene, the "Oregon Spectator." W. G. T'Vault, the first Posey and V. Parke, editor, publishes his valedictory in the fifth number, Putnam, some misunderstanding with the Association owning Rush, Ripley, the press, causing his withdrawal. Politics appears Randolph, B. and J., to be the cause of difficulty, if we understand Mr. T., Shelby, Switzerland and O., and it appears that there are aristocrats in Oregon St. Joseph, M. and F., Lot Day, city as well as every where else! H. A. G. Lee Tippecanoe, assumes the tripod of the Spectator in number six, Vigo, S. and C., and seems to talk pretty well, though we suspect he Warren, &c., is a Whig.

BANKRUPTS UNDER THE LATE LAW .- A report has Washington, been prepared by the State Department for Congress from which it appears that the number of applicants for the benefit of the bankrupt law, heretofore passed, was 33,739; number discharged from the payment of their debts, 29,291; refused by the courts, 766; Adams and Wells, applications still pending, 4463; aggregate number Bartholomew of creditors, given by the applicants, 1,049,60;; ag- Blackford and Jay, gregate debts, \$440,934,615; property surrendered, Brown, \$43,697,301; costs of judicial proceedings, \$602,- Carroll, 322. PANIC OF ANOTHER CHARACTER.—In the North, Decator, Decato Deniborn, the Whigs predict that the new tariff bill is about to Dubois, inflict "ruin" upon the manufacturers. The Georgia Etkhart, Whigs, on the contrary, denounce the bill, because it Floyd, gives too many bounties to the manufacturers. Hear Fountain, the Georgia (Whig) Journal:
